Tongue-Tied Engineer

Equipment

pocket computer

1000 credits standard

R2 unit

Background: You carry a pocket computer at all time. Your clothes always look bulky and awkward. You're clumsy and drop things a lot. The idea of shooting a blaster at someone makes you distinctly nervous. You have difficulty holding a conversation — any conversation — unless it's about math, machines or computers. You find it easier to deal with Droids than with humans — Droids are predictable and stable. People don't pay much attention to you — until something needs to be fixed, or they need to know something, or they need someone to break into a computer. You can do any of that in nothing flat.

Personality: Clumsy, awkward, painfully shy, but with a flair for technology.

A Quote: "The integral over the surface rho with respect to v is, umm, let's see, del cross negative B, plus the partial derivative of . . ."

Connection With Other Characters: You might be related to the Brash Pilot or Kid. A Smuggler, Merc, Laconic Scout, or Outlaw might have taken you in tow. You can have fallen (secretly and inarticulately) in love with any of the younger and more glamorous characters (Young Senatorial, Smuggler, Brash Pilot, Gambler). One of the characters with Force powers might have decided to train you.
